## THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Hudson, N. H., in the County of Hillsboro in said State, qualified to vote in Town Affairs:

[L. S.]

You are hereby notified to meet at the Town Hall in said Hudson on Tuesday, the 11th day of March next, at 10 of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.
3. To bring in your votes for the election of Delegates-at-Large, Alternate Delegates-at-Large, District Delegates, Alternate District Delegates to the National Conventions of the Democratic and Republican parties, to be held for the purpose of nominating party candidates for President and Vice-President of the United States.
4. To see what sum of money the Town will vote to raise for permanent improvement of highways in addition to what is required by law to be raised and to see if the Town will vote to accept State Aid.
5. To see if the Town will vote to accept the provisions of chapter 117, laws of 1917, providing for State

Aid on the uncompleted section of the Derry Road Trunk Line and appropriate or set aside from the amount raised for highway work the sum of \$250 for this purpose.

6. To see what sum of money the Town will vote to raise for the benefit of the Public Library.

7. To see what sum of money the Town will vote to raise for Memorial Day.

8. To see what action the Town will take in regard to improving fire protection and what sum of money it will raise for this purpose.

9. To see if the Town will vote to keep the sidewalks ploughed out during the winter months, the vote to be final for all future winters, and appropriate money to meet the expenses for next winter, on petition of H. L. Boynton and others.

10. To see if the Town will vote to build a permanent piece of highway on the Litchfield Road or Webster Street, so called, commencing at Ferry Street, and appropriate money for same on petition of H. L. Boynton and others.

Given under our hand and seal, this 21st day of February, in the year of our Lord nineteen hundred and twenty-four.

JOHN H. PERKINS,  
HENRY C. BROWN,  
JOHN A. ROBINSON,  
Selectmen of Hudson, N. H.

## Report of Trustees

The supplies for the new card catalog have been ordered and it is expected that the new system will be installed early in the spring. This will be done under the supervision of the State public library commission, and the secretary of the commission will be in direct charge and will herself do much of the necessary work.

A change in the personnel in the office of the commission has caused an unavoidable delay in making the change.

The income from the Dr. Hills fund has made possible the purchase of a large number of choice books, many of which are already on the shelves, while, as usual, generous friends of the library have contributed papers and magazines.

ELIZA B. LESLIE,  
GEORGE F. BLOOD,  
HENRY O. SMITH,  
Library Trustees.

# School Warrant

---

## THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District of the Town of Hudson qualified to vote in district affairs:

You are hereby notified to meet at the Webster School Building, in said district on the eighteenth day of March, 1924, at 2.30 in the afternoon, to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To choose a treasurer for the ensuing year.
4. To choose a member of the school board for the ensuing three years.
5. To choose agents auditors and committees in relation to any subject embraced in this warrant.
6. To see what sum of money the district will vote to raise for the building, repairing or furnishing school houses or to in any way keep in repair or improve the school property of the district.

7. To see what sum of money the district will vote to raise for schools in addition to the amount required by law.

8. To see what sum the district will vote to pay its school officers the ensuing year.

Given under our hands at said Hudson, the nineteenth day of February, 1924.

HENRY O. SMITH,  
KARL E. MERRILL,  
School Board of Hudson, N. H.

A true copy of Warrant—Attest:

HENRY O. SMITH,  
KARL E. MERRILL,  
School Board of Hudson, N. H.

## SCHOOL REPORT

To the Citizens of the District:

The superintendent of the union, Mr. Record, has, in his report, touched upon numerous points of interest and made several recommendations. These are all worthy of your careful consideration and should receive it before as well as at the annual meeting.

The increase in the number of our children attending the Nashua High School is noteworthy and a source of satisfaction. Four years ago we were sending thirty students, while this year the number is eighty-one. Of these, 10 are seniors, 21 are juniors, 23 sophomores and 27 are freshmen.

As the charge for tuition for each student is \$76.00, you can readily see why this item of expense has increased so rapidly within the last four years and why our estimate of the amount that will be required for the school year, 1924-25, is so much larger than even before.

The district has been fortunate in being able to retain this year so many teachers of proven ability.

At the beginning of the school year they were given a well-deserved increase in their salaries.

The problem of transportation is always with us, and it is certain that the cost to the district next year will be considerably more than ever before. It may, therefore, be well for the district to raise a larger sum for school purposes than the maximum mentioned in the State law. The retiring member of the board wishes to call to your attention a few facts, with most of which you are familiar, but which he thinks are well worth careful thought.

The only electric lines radiating from the centre of Nashua's business activities which extend any considerable distance beyond the built-up part of the city are the ones running to Stewart's corner, to Pelham, and to Litchfield. These three lines are all in Hudson and traverse territory which offers unexcelled building sites at a comparatively low price. Several land companies have already taken advantage of these conditions and developed extensive tracts.

It is altogether probable, then, that the workers in Nashua's mills and machine shops will tend more and more to seek homes to the Eastward of the Merrimack.

As a consequence of the influx of new families it has been necessary to double the capacity of the Webster building. Several of the rooms, even now, are filled to

capacity, and the advent of a comparatively small number of children in certain grades would necessitate the division of those grades and the use of additional rooms.

You can readily see the result should the land companies develop other tracts or even dispose of the remnant of their holdings to actual home builders.

Now the cost of maintaining our schools is met, aside from the small amount received from the dog tax, by taxation and State aid. We are at present receiving practically the maximum of State aid allowed by law. No matter how much our school population and expenses may increase, we can look for no additional sum from the State.

The revenue from taxation accrues in the main from taxes on our homes, on our places of business, whether farms or factories, and on the buildings and stocks of the merchants with whom we trade.

It is evident, then, that a town in which there is a steady increase in the number of homes (unless, indeed, those homes are of a type that will yield a considerable revenue from taxation), without a corresponding increase in mill or factory property, is at a constantly increasing disadvantage.

Concretely, so long as Hudson becomes more and more the bedroom of the workers who find employment in the mills and factories of Nashua and spend the most of their wages in Nashua's stores, thus helping to pay the taxes of Nashua's merchants, so long will our financial problems become more and more pressing.

As it happens, the law passed by the last legislature relative to the taxation of intangibles, the effect of which we shall feel this coming year, will very materially reduce the amount of our taxable property and increase

our tax rate. The time is rapidly coming, if it is not already here, when we should very seriously consider the advisability of seeking a union of the school district of Hudson with the city of Nashua for school purposes.

The following figures are eloquent: valuation of taxable property, April, 1923:

|        |                 |
|--------|-----------------|
| Nashua | \$39,686,192.00 |
| Hudson | 1,676,920.00    |

Public school children in the grades below the high school.

|        |       |
|--------|-------|
| Nashua | 2,822 |
| Hudson | 367   |

Taxable property per child in these grades.

|        |             |
|--------|-------------|
| Nashua | \$14,063.00 |
| Hudson | 4,569.00    |

The following estimates for the year 1924-25 are submitted:

|                                            |             |
|--------------------------------------------|-------------|
| Additional sum for support of schools      | \$11,000.00 |
| Purchase of text books and supplies        | 1,000.00    |
| Purchase of flags and appurtenances        | 10.00       |
| Payment of notes                           | 5,600.00    |
| Payment of interest                        | 590.00      |
| Instruction in special subjects            | 500.00      |
| Payment of tuition in high schools         | 6,000.00    |
| Payment of excess salary of Superintendent | 275.00      |
| For repairs on houses                      | 500.00      |
| Payment of per capita tax                  | 898.00      |

HENRY O. SMITH,  
KARL E. MERRILL,  
HENRY C. BROWN,  
School Board of Hudson.

## SUPERINTENDENT'S REPORT

To the School Board of Hudson:

Gentlemen:

I have the pleasure of presenting herewith my fifth annual report as superintendent of your schools:

## Teachers

For this school year it was necessary to employ for new teachers but one regular and one special. Both are doing very creditable work. Following precedent, Miss Nellie O. Jones was transferred from No. 1 School to the Webster School.

With but two changes in a corps of 13 teachers, we have secured as great a permanency as could reasonably be expected in any school system, large or small, and perhaps as great as is desirable. This permanency has doubtless resulted from an increase of the salary schedule and better school accommodations in housing and equipment. The employment of trained and tried teachers together with the better accommodations has, I believe, increased the efficiency of your schools and greatly assisted in securing the confidence of the people in their excellence. There is much yet, however, which can be improved.

## Attendance

The school population of Hudson is steadily increasing. The following statistics are taken from the statistical reports to the State Board for the past five years.  
Total enrollment in

|                  | 18-19 | 19-20 | 20-21 | 21-22 | 22-23 | Present |
|------------------|-------|-------|-------|-------|-------|---------|
| Hudson schools   | 338   | 343   | 366   | 367   | 372   |         |
| Ave. membership  | 261   | 282   | 298   | 305   | 308   | 341     |
| Hudson pupils in |       |       |       |       |       |         |
| High schools and |       |       |       |       |       |         |
| Academies        | 34    | 30    | 44    | 59    | 65    | 81      |
| Per cent of att. | 88    | 88    | 89    | 87    | 88    |         |

The enrollment by schools was on January 7, No. 1 13; No. 9, 17; Center School, 56; Webster School, 255.

This shows an increase of 43 per cent in the number of elementary and secondary pupils in the schools during the past five years. The same per cent increase during the next five years would bring the number of our pupils up to 603, and would show a little over 100 per cent increase for the decade. A provident policy would seem to require some provision being made for such an expansion. Proper sites can be secured now much more cheaply than when the demand is urgent.

### Junior High

In order to prepare our pupils so that they may elect any curriculum in the Nashua High, it has been found necessary in the past three years to increase the amount of modern language work, to offer an option in Latin, and to have our manual arts work conform more closely to that in Nashua.

It is altogether probable that if our pupils in the near future are to enter without handicap the commercial course at the Nashua High School, it will be necessary to give some instruction in grade VIII in commercial subjects. As long as we prepare our pupils for that school, we cannot lag many laps behind the Nashua Junior High in the matter of extent of curricula. I speak of this as

one of the problems the solution of which we must probably soon face.

The expansion of the Junior High, when it comes, may have a bearing on the desirability of the consolidation of all grades VII and VIII in the District.

### Results from Tests

I have caused the Sanford Achievement Test to be given in the schools this year. The results have been quite encouraging. Both the average and the medium attainment quotient for grades VII and VIII in the Webster School were above 100. In grade VII the average educational age was 2 months and in grade VIII, 4 months greater than the average actual age of pupils in general in those grades. This means that the pupils were 2 months and 4 months ahead of the average for children of a like age. While this speaks well for the school system as a whole, I believe it is possible to do quite a little better.

The results of the 1846 Springfield tests in arithmetic and spelling, given throughout the state at the direction of the State Board of Education, were also very satisfactory. Hudson received a combined score of  $102\frac{1}{2}$ . This was above the average for the state and considerably beyond the rank received by the Springfield pupils in 1846 in grade X.

### The Marking System

A word of explanation at this time of our marking system may not be amiss. Lack of understanding of the significance of the marks on the pupils' cards very frequently causes much uneasiness for the parents and leads

to unpleasant situations for the teacher, and sometimes for other school officials.

We have adopted in our marking system a five point scale, with four grades above the passing mark, and one to indicate any degree of attainment, however poor, which is below such a standard. The vital point is the standard of attainment fixed for a passing mark. This should represent an absolute quantity and should not be subject to the caprice of any school official, whether teacher, superintendent, or board member. It should represent such attainment for each grade as is known to be secured on promotion by the pupils in the average school. To fix such a standard with any degree of certainty has been, up to recent years, an impossibility. Any teacher or administrative officer could, of course, guess, but there has been no data for forming any reliable judgment. All this is now changed. From the many and much used scales, and the standardized tests of today, the teacher or the superintendent can form a very definite idea of where the passing mark should be in the scale of attainment in any school subject.

When the crucial point has been fixed, the grading of those above the passing mark is a comparatively easy matter. In the five point scale, we give a mark of A, for the exceptional attainment, such as is found from the curve of normal distribution is secured by 7 per cent or 8 per cent of the pupils in schools in the aggregate. B, is given for the rest of the upper third, C, for the middle third, D, for that portion of the lowest third which is above the passing standard, and F, for all below passing.

The mark C, then, represents the attainment of the largest class, the great class of average ability, while B, is a mark which any parent should be proud to see on the

child's card, and A, is for the exceptional few. Understanding this, it is inconsistent for a parent, claiming but average ability or behavior for his child, to expect marks of A and B. These are marks for pupils of more than the average abilities or behavior. We have such pupils and we have provided this way in our marking system of grading them.

This scheme for marking the attainment of pupils is the one used, or approximated, in nearly all school systems of today. It can be reduced to a per cent basis wherever there is an advantage in so doing.

I wish once more to call your attention to the fact that the housing conditions at the Center are far below those at the Webster School. If any attempt is to be made in the near future to equalize opportunities in this respect, it should be done before another outlay is called for at the Bridge.

I am appending to this report an abstract from the general statistics for the school year 1922-23, and also a report from our school nurse.

Thanking the board for the many considerations shown me which have made my work for the past year a pleasure, this report is,

Respectfully submitted,

LOUIS DEWITT RECORD,  
Supt. of School, Union No. 27.

February 1, 1924.

## EXTRACT FROM GENERAL STATISTICS, 1922-23

|                                                       |        |
|-------------------------------------------------------|--------|
| Whole number of schools maintained                    | 11     |
| Whole number of teaching positions                    | 13     |
| Different pupils registered in the district           | 372    |
| Aggregate attendance in half day                      | 90,175 |
| Average attendance in all schools                     | 271    |
| Average membership in all schools                     | 308    |
| Per cent of attendance                                | 88     |
| Number of pupils in secondary schools                 | 65     |
| Number of pupils not absent nor tardy                 | 4      |
| Number of visits made to all schools by board members | 23     |
| Number of visits made by the superintendent           | 493    |
| Number of visits made by citizens                     | 305    |

---

## HEALTH INSPECTION REPORT

|                                                     |     |
|-----------------------------------------------------|-----|
| No. pupils examined                                 | 330 |
| No. pupils found to have defective teeth            | 126 |
| No. pupils found to have hypertrophied tonsils      | 66  |
| No. pupils found to be underweight (7 lbs. or more) | 37  |
| No. pupils found to be unvaccinated                 | 11  |
| No. pupils found to be defective vision             | 26  |
| No. pupils found to be defective hearing            | 2   |
| No. pupils found to be orthopedic defects           | 2   |
| No. pupils found to be pediculosis                  | 17  |
| No. pupils who have had treatment for teeth         | 60  |
| No. pupils who had treatment for vision             | 11  |
| No. pupils who have had treatment for tonsils       | 10  |

The school work has been greatly interrupted this year because of contagious diseases. Whooping cough kept many of the children especially of the lower grades out of school in the early part of the year, and the past two months there have been a good many cases of mumps, measles, and chicken-pox. We have been very successful in getting most of the children vaccinated, a few have been excused because of ill health.

There have been some complaints from Mothers in regard to a suitable place for the children to eat their lunches. Could not some provision be made either in their own rooms or in the cooking room? Would it not be possible to put a bubbler in the Hudson Center building?

It is gratifying to report that the pupils in the upper grades show the result of the health teaching of the past four years, especially in the care of the teeth, and personal cleanliness.

Respectfully submitted,

MAUDE H. PRISKE,  
School Nurse.
